To Whom it May Concern

Dear Sir/Madam

**RE: KDS CONSTRUCTION CO LIMITED
OF ROTHERHAM, S62 6ES**

The above firm have been employed by our Clients over many years on a number of contracts in the UK and we do not hesitate in recommending them as Principal Contractors for Civil Engineering Works.

We have found them experienced, reliable and, above all, each contract complied with our specification, ahead of required completion date and within their quoted price.

Yours faithfully
CHMIEL OVERTON PARTNERSHIP

To Whom It May Concern:

KDS Construction Limited
132 Broad Street, Parkgate, Rotherham, S62 6ES

We have used the services of KDS Construction Co Ltd since about 1997 in their capacity as a civil contractor.

These projects are often difficult and require detailed planning and are always required in short time scales as we are galvanizers and normally only have very short periods of shutdown.

I have listed below some of the more significant projects they have completed in the last few years.

Workshop Galvanizing Ltd	Run out pits (2003)	£150K
Merseyside Galvanizing Ltd	New furnace pit (2003)	£30K
Newport Galvanizers Ltd	New galvanizing facility (2004/05)	£800K
Scottish Galvanizers Ltd	New enlarged furnace pit (2007)	£110K
Edward Howell Galvanizers Ltd	New enlarged furnace pit (2007)	£45K

As far as costs go they are competitive and not claim happy and within the normal contingencies for a project have been within budget.

We have always found them to be hard working, accurate, punctual and provide an excellent service.

On a personal view Steve Jeffs is someone you can always talk to straightforwardly on technical aspects of the job and he was always directly involved with each job we have had done by them.

We will certainly use them again on future projects and I hope the above information is of use to you.

Simon Bailey
Director of Engineering
Wedge Group Galvanizing Ltd

KDS CONSTRUCTION

To who it may concern

Since circa early 2006 Allied Glass has enjoyed an excellent working relationship with KDS construction.

They have won and been awarded contracts ranging in value from £15k-£500k covering various disciplines from deep piled foundations to constructional steel and masonry brickwork.

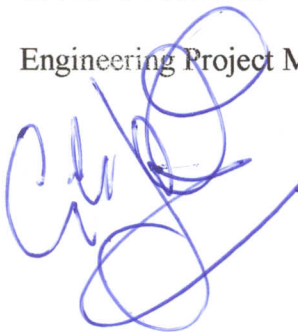

Workmanship has generally been of a very good standard with all personnel readily adhering to prescribed health and safety regulations.

 Completion deadlines were achieved in all cases with any contractual issues being resolved fairly and amicably.

In conclusion I have no hesitation in recommending KDS CONSTRUCTION to anyone requiring high quality foundation groundworks.

G.Graham Johnson
